Jordan Sample

Seliant Mechanical Reasoning Test · Completed Nov 4, 2026

Project: Engineering Recruitment - Q3
Role: Machine Operator
Device: Mac

32 of 32 items answered · Form A · Danish · Norm: General norm group, Form A
Time used: 20 of 20 minutes

Overall score

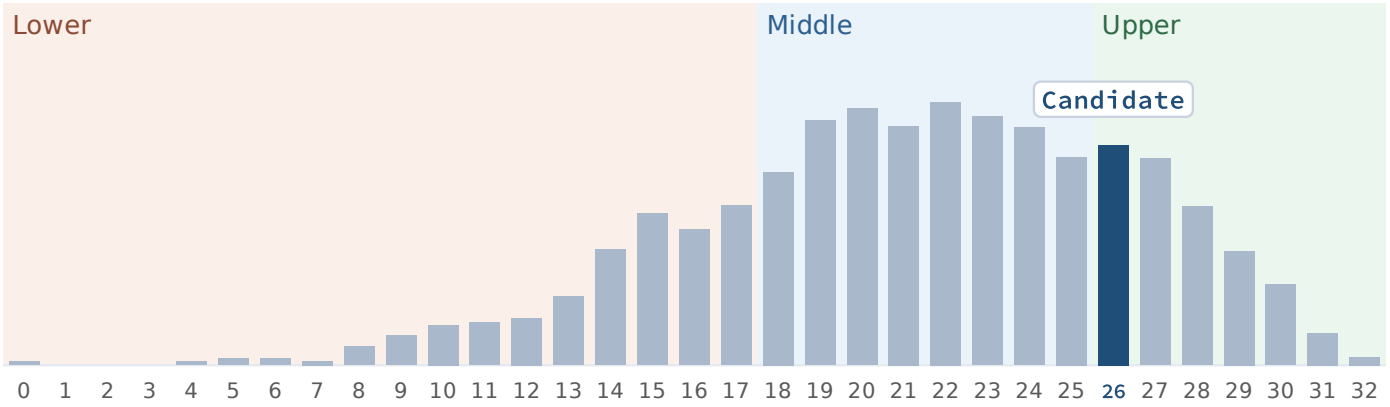

26	80	Upper
RAW SCORE	PERCENTILE	BAND
of 32	general norm group	raw 26–32

Jordan Sample answered 26 of 32 questions correctly. This corresponds to a percentile of 80, meaning a better score than about 80% of the norm group.

Upper band: a strong practical grasp of how machines and physical systems behave. About a quarter of the norm group score in this band.

Score distribution

How many people in the norm group (Form A, 2,637 people) got each raw score. The dark bar marks Jordan; the shading shows the three bands.

Treat scores fewer than 5 points apart as equal. Use this result alongside an interview, work history or a practical trade test.

Per-question results

26 correct · 6 wrong · 0 not answered

One question is too little evidence to judge a topic. Base decisions on the total score, not on single questions or content areas.

No.	Content area	Answer
1	Gears and rotation	✗
2	Heat	✓
3	Electricity	✗
4	Tools and everyday objects	✓
5	Levers and balance	✓
6	Forces and motion	✓
7	Forces and motion	✓
8	Springs	✓
9	Liquids and pressure	✓
10	Gears and rotation	✓
